Item 4 **Advisory Business**

A. Sterling Investment Advisors, Ltd. (the “Registrant”) is a corporation formed on March 13, 2000, in the Commonwealth of Pennsylvania. The Registrant became registered as an Investment Adviser Firm in May 2006. The Registrant is owned by Timothy Flatley and Sean Flatley. Timothy Flatley is also the Registrant’s President.

B.

INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary investment advisory services on a *fee* basis. Registrant's annual investment advisory fee shall include investment advisory services, and, to the extent specifically requested by the client, financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of Registrant), Registrant may determine to charge for such additional services, the dollar amount of which shall be set forth in a separate written notice to the client.

To commence the investment advisory process, Registrant will ascertain each client’s financial goals and investment objective(s) and then allocate the client’s assets consistent with the client’s designated investment objective(s). Through personal discussions in which goals and objectives based on a client’s particular circumstances are established, the Registrant develops each client’s personal investment policy and creates and manages a portfolio, which may include the individual’s personal 401k assets, based on that investment policy. Once allocated, Registrant provides ongoing supervision of the account(s). Before engaging Registrant to provide investment advisory services, clients are required to enter into an *Investment Advisory Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the fee that is due from the client.

RETIREMENT PLAN CONSULTING

Registrant may also provide investment advisory and consulting services to participant directed retirement plans per the terms and conditions of a *Retirement Plan Services Agreement* between Registrant and the plan. For such engagements, Registrant shall assist the Plan sponsor with the selection of an investment platform from which Plan participants shall make their respective investment choices (which may include investment strategies devised and managed by Registrant), and, to the extent engaged to do so, may also provide corresponding education to assist the participants with their decision-making process.

Trustee Directed Plans. Registrant may be engaged to provide discretionary investment advisory services to ERISA retirement plans, whereby the Firm shall manage Plan assets consistent with the investment objective designated by the Plan trustees. In such engagements, Registrant will serve as an investment fiduciary as that term is defined under The Employee Retirement Income Security Act of 1974 (“ERISA”). Registrant will generally provide services on an “assets under management” fee basis per the terms and conditions of an *Investment Advisory Agreement* between the Plan and the Firm.

Participant Directed Retirement Plans. Registrant may also provide investment advisory and consulting services to participant directed retirement plans per the terms and conditions of a *Retirement Plan Services Agreement* between Registrant and the plan. For

such engagements, Registrant shall assist the Plan sponsor with the selection of an investment platform from which Plan participants shall make their respective investment choices (which may include investment strategies devised and managed by Registrant), and, to the extent engaged to do so, may also provide corresponding education to assist the participants with their decision making process.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant provides financial planning and/or consulting services (including investment and non-investment related matters, including personal planning, tax and cash flow planning, insurance planning, retirement planning etc.) on a stand-alone separate fee basis. Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into a *Financial Planning and Consulting Agreement* with Registrant setting forth the terms and conditions of the engagement (including termination), setting forth the terms and conditions of the engagement, describing the scope of the services to be provided, and the fees that are due from the client.

It remains the client's responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of the Registrant revising its previous recommendations.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. To the extent requested by the client, Registrant will generally provide financial planning and related consulting services regarding non-investment related matters, such as tax and estate planning, insurance, etc. Registrant will generally provide such consulting services inclusive of its advisory fee set forth at Item 5 below (exceptions could occur based upon assets under management, special projects, stand-alone planning engagements, etc. for which Firm may charge a separate or additional fee).

Registrant believes that it is important for the client to address financial planning issues on an ongoing basis. Registrant's advisory fee, as set forth at Item 5 below, will remain the same regardless of whether or not the client determines to address financial planning issues with Registrant.

Furthermore, although the Registrant may provide recommendations regarding non-investment related matters, such as estate planning, tax planning, and insurance, etc. the Registrant does not serve as a law firm, accounting firm, or insurance agency, and no portion of Registrant's services should be construed as legal, accounting, or insurance implementation services. Accordingly, the Registrant does not prepare estate planning documents or other legal documents, tax returns, or sell insurance products.

To the extent requested by a client, Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e., attorneys, accountants, insurance agents, etc.), including representatives of the Registrant in their separate and individual registered/licensed capacities as registered representatives of Purshe Kaplan Sterling Investments, an SEC-registered and FINRA member broker-dealer ("PKS") as discussed in Items 5.E. and 10.C. below, as well as licensed insurance agents as discussed in Item 10.C. below. The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion

over all such implementation decisions and is free to accept or reject any recommendation from Registrant and/or its representatives.

If the client engages any such recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged unaffiliated professional. At all times, the engaged licensed professional(s) (i.e., attorney, accountant, insurance agent, etc.), and not the Registrant, shall be responsible for the quality and competency of the services provided.

Independent Managers. Registrant may recommend that the client allocate a portion of a client's investment assets among unaffiliated independent investment managers ("Independent Manager(s)") in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) will have day-to-day responsibility for the active discretionary management of the allocated assets. Registrant will continue to render investment supervisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation, and client investment objectives. The Registrant generally considers the following factors when recommending Independent Manager(s): the client's designated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. The investment management fees charged by the designated Independent Manager(s) are exclusive of, and in addition to, Registrant's ongoing investment advisory fee, subject to the terms and conditions of a separate agreement between the client and the Independent Manager(s). Registrant's advisory fee is set forth in the fee schedule at Item 5 below.

Account Aggregation Platforms. Registrant may provide its clients with access to online platforms hosted by "eMoney Advisor" ("eMoney") and/or ByAllAccounts, Inc. (collectively, the "Platforms"). The Platforms can incorporate client investment assets that are not part of the assets that Registrant manages (the "Excluded Assets"). Unless agreed to otherwise, in writing, the client and/or their other advisors that maintain trading authority, and not Registrant, shall be exclusively responsible for the investment performance of the Excluded Assets. Unless also agreed to otherwise, in writing, Registrant does not provide investment management, monitoring or implementation services for the Excluded Assets. The client can engage the Registrant to provide investment management services for the Excluded Assets pursuant to the terms and conditions of the *Investment Advisory Agreement* between Registrant and the client.

The Platforms also provides access to other types of information, including financial planning concepts, which should not, in any manner whatsoever, be construed as services, advice, or recommendations provided by Registrant. Finally, Registrant shall not be held responsible for any adverse results a client may experience if the client engages in financial planning or other functions available on the Platforms without Registrant's assistance or oversight.

Retirement Rollovers-Potential for Conflict of Interest. A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's

age, result in adverse tax consequences). If Registrant recommends that a client roll over their retirement plan assets into an account to be managed by Registrant, such a recommendation creates a conflict of interest if Registrant will earn new (or increase its current) compensation as a result of the rollover. If Registrant provides a recommendation as to whether a client should engage in a rollover or not (whether it is from an employer's plan or an existing IRA), Registrant is acting as a fiduciary within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. No client is under any obligation to roll over retirement plan assets to an account managed by Registrant, whether it is from an employer's plan or an existing IRA.

Use of Mutual Funds and Exchange Traded Funds. Registrant utilizes mutual funds and exchange traded funds for its client portfolios. In addition to Registrant's investment advisory fee described below, and transaction and/or custodial fees discussed below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses).

Unaffiliated Private Investment Funds. Registrant also provides investment advice regarding private investment funds. Registrant, on a non-discretionary basis, may recommend that certain qualified clients consider an investment in private investment funds, the description of which (the terms, conditions, risks, conflicts and fees, including incentive compensation) is set forth in the fund's offering documents. Registrant's role relative to unaffiliated private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. If a client determines to become an unaffiliated private fund investor, the amount of assets invested in the fund(s) shall be included as part of "assets under management" for purposes of Registrant calculating its investment advisory fee. Registrant's fee shall be in addition to the fund's fees. Registrant's clients are under absolutely no obligation to consider or make an investment in any private investment fund(s).

Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may own, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that he/she is qualified for investment in the fund, and acknowledges and accepts the various risk factors that are associated with such an investment.

Valuation. In the event that Registrant references private investment funds owned by the client on any supplemental account reports prepared by Registrant, the value(s) for all private investment funds owned by the client shall reflect the most recent valuation provided by the fund sponsor. However, if subsequent to purchase, the fund has not provided an updated valuation, the valuation shall reflect the initial purchase price. If subsequent to purchase, the fund provides an updated valuation, then the statement will reflect that updated value. The updated value will continue to be reflected on the report until the fund provides a further updated value.

As result of the valuation process, if the valuation reflects initial purchase price or an updated value subsequent to purchase price, the current value(s) of an investor's fund

holding(s) could be significantly more or less than the value reflected on the report. Unless otherwise indicated, Registrant shall calculate its fee based upon the latest value provided by the fund sponsor.

Socially Responsible (ESG) Investing Limitations. Socially Responsible Investing involves the incorporation of Environmental, Social and Governance (“ESG”) considerations into the investment due diligence process. ESG investing incorporates a set of criteria/factors used in evaluating potential investments: Environmental (i.e., considers how a company safeguards the environment); Social (i.e., the manner in which a company manages relationships with its employees, customers, and the communities in which it operates); and Governance (i.e., company management considerations). The number of companies that meet an acceptable ESG mandate can be limited when compared to those that do not and could underperform broad market indices. Investors must accept these limitations, including potential for underperformance. Correspondingly, the number of ESG mutual funds and exchange-traded funds are limited when compared to those that do not maintain such a mandate. As with any type of investment (including any investment and/or investment strategies recommended and/or undertaken by Registrant), there can be no assurance that investment in ESG securities or funds will be profitable or prove successful. Registrant does not maintain or advocate an ESG investment strategy but will seek to employ ESG if directed by a client to do so. If implemented, Registrant shall rely upon the assessments undertaken by the unaffiliated mutual fund, exchange traded fund or separate account portfolio manager to determine that the fund’s or portfolio’s underlying company securities meet a socially responsible mandate.

Cryptocurrency. For clients who want exposure to cryptocurrencies, including Bitcoin, the Registrant, will advise the client to consider a potential investment in corresponding exchange traded securities, or an allocation to separate account managers and/or private funds that provide cryptocurrency exposure. Crypto is a digital currency that can be used to buy goods and services but uses an online ledger with strong cryptography (i.e., a method of protecting information and communications through the use of codes) to secure online transactions. Unlike conventional currencies issued by a monetary authority, cryptocurrencies are generally not controlled or regulated and their price is determined by the supply and demand of their market. Because cryptocurrency is currently considered to be a speculative investment, the Registrant will not exercise discretionary authority to purchase a cryptocurrency investment for client accounts. Rather, a client must expressly authorize the purchase of the cryptocurrency investment.

The Registrant does not recommend or advocate the purchase of, or investment in, cryptocurrencies. The Registrant considers such an investment to be speculative.

Clients who authorize the purchase of a cryptocurrency investment must be prepared for the potential for liquidity constraints, extreme price volatility and complete loss of principal.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client’s best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, mutual fund manager tenure, style drift, and/or a change in the client’s investment objective. Based upon these factors, there may be extended periods of time when Registrant determines

that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Inverse/Enhanced Market Strategies. Registrant may utilize long and short mutual funds and/or exchange traded funds that are designed to perform in either an: (1) inverse relationship to certain market indices (at a rate of 1 or more times the inverse [opposite] result of the corresponding index) as an investment strategy and/or for the purpose of hedging against downside market risk; and (2) enhanced relationship to certain market indices (at a rate of 1 or more times the actual result of the corresponding index) as an investment strategy and/or for the purpose of increasing gains in an advancing market. There can be no assurance that any such strategy will prove profitable or successful. To the contrary, such funds and/or strategy(ies) can suffer substantial losses. In light of these enhanced risks/rewards, a client may direct Registrant, in writing, not to employ any or all such strategies for his/her/their/its accounts. In light of these enhanced risks, a client may direct the Registrant, in writing, not to employ any or all such strategies for the client's account.

Cash Positions. Registrant continues to treat cash as an asset class. As such, unless determined to the contrary by Registrant, all cash positions (money markets, etc.) shall continue to be included as part of assets under management for purposes of calculating Registrant's advisory fee. At any specific point in time, depending upon perceived or anticipated market conditions/events (there being no guarantee that such anticipated market conditions/events will occur), Registrant may maintain cash positions for defensive purposes. In addition, while assets are maintained in cash, such amounts could miss market advances. Depending upon current yields, at any point in time, Registrant's advisory fee could exceed the interest paid by the client's money market fund.

Cash Sweep Accounts. Certain account custodians can require that cash proceeds from account transactions or new deposits, be swept to and/or initially maintained in a specific custodian designated sweep account. The yield on the sweep account will generally be lower than those available for other money market accounts. When this occurs, to help mitigate the corresponding yield dispersion Registrant shall (usually within 30 days thereafter) generally (with exceptions) purchase a higher yielding money market fund (or other type security) available on the custodian's platform, unless Registrant reasonably anticipates that it will utilize the cash proceeds during the subsequent 30-day period to purchase additional investments for the client's account. Exceptions and/or modifications can and will occur with respect to all or a portion of the cash balances for various reasons, including, but not limited to the amount of dispersion between the sweep account and a money market fund, the size of the cash balance, an indication from the client of an imminent need for such cash, or the client has a demonstrated history of writing checks from the account.

The above does not apply to the cash component maintained within a Registrant actively managed investment strategy (the cash balances for which shall generally remain in the custodian designated cash sweep account), an indication from the client of a need for access to such cash, assets allocated to an unaffiliated investment manager and cash balances maintained for fee billing purposes.

The client shall remain exclusively responsible for yield dispersion/cash balance decisions and corresponding transactions for cash balances maintained in any Registrant unmanaged accounts.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other designated professionals, and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant's previous recommendations and/or services.

Cybersecurity Risk. The information technology systems and networks that Registrant and its third-party service providers use to provide services to Registrant's clients employ various controls, which are designed to prevent cybersecurity incidents stemming from intentional or unintentional actions that could cause significant interruptions in Registrant's operations and result in the unauthorized acquisition or use of clients' confidential or non-public personal information. Clients and Registrant are nonetheless subject to the risk of cybersecurity incidents that could ultimately cause them to incur losses, including for example: financial losses, cost and reputational damage to respond to regulatory obligations, other costs associated with corrective measures, and loss from damage or interruption to systems. Although Registrant has established procedures to reduce the risk of cybersecurity incidents, there is no guarantee that these efforts will always be successful, especially considering that Registrant does not directly control the cybersecurity measures and policies employed by third-party service providers. Clients could incur similar adverse consequences resulting from cybersecurity incidents that more directly affect issuers of securities in which those clients invest, broker-dealers, qualified custodians, governmental and other regulatory authorities, exchange and other financial market operators, or other financial institutions.

Disclosure Statement. A copy of Registrant's written Privacy Notice and written disclosure statement as set forth on Part 2 of Form ADV and Form CRS (Client Relationship Summary) shall be provided to each client or prospective client prior to, or contemporaneously with, the execution of the *Investment Advisory Agreement*, *Financial Planning and Consulting Agreement*, or *Retirement Plan Consulting Agreement*.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client's investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). Portfolio weighting between funds and market sectors will be determined by each individual client's needs and circumstances. The client may, at any time, impose reasonable restrictions, in writing, on the Registrant's services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of December 31, 2023, the Registrant had \$745,783,895 in assets under management on a discretionary basis.

Item 5 Fees and Compensation

A.

INVESTMENT ADVISORY SERVICES

The Registrant shall receive an investment advisory fee based upon a percentage (%) of the market value of the assets placed under management (between negotiable and 1.00%).

The advisory fee will be pro-rated, and paid quarterly, in advance, based upon the market value of the assets on the last day of the previous quarter. Unless Registrant agrees otherwise, in writing, Registrant shall debit the account directly for its advisory fee. In the event of termination, Registrant shall refund any unearned portion of the advanced fee paid based upon the number of days remaining in the billing quarter. It is Registrant's policy is to treat intra-quarter account additions and withdrawals equally, unless indicated to the contrary on the Registrant's written Brochure and/or Investment Advisory Agreement executed by the client.

Fee Differentials: Fees shall vary depending upon various objective and subjective factors, including but not limited to: the representative assigned to the account, the amount of assets to be invested, the complexity of the engagement, the anticipated number of meetings and servicing needs, related accounts, future earning capacity, anticipated future additional assets, and negotiations with the client. As a result, similar clients could pay different fees, which will correspondingly impact a client's net account performance. Additionally, Registrant in its discretion, may charge a lesser investment advisory fee, charge a flat fee, waive its fee entirely, or charge fee on a different interval, based upon certain criteria (i.e., anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, complexity of the engagement, anticipated services to be rendered, grandfathered fee schedules, employees and family members, courtesy accounts, competition, negotiations with client, etc.).

As result of the above, similarly situated clients could pay different fees. Moreover, the services to be provided by the Registrant to any particular client could be available from other advisers at lower fees. All clients and prospective clients should be guided accordingly.

Additionally, clients who choose to engage *Independent Manager(s)* will incur a fee payable to the *Independent Manager(s)* that generally ranges between 0.50% and 1.00% of the value of the assets allocated to such *Independent Manager(s)*. In such an event, the combined fee that a client will pay to the Registrant and the *Independent Manager(s)* generally falls within the fee range discussed above. Such combined fee shall not, at any time, exceed 1.00% of the market value of the assets under management.

RETIREMENT PLAN CONSULTING

The Registrant also provides pension consulting services, pursuant to which it assists sponsors of self-directed retirement plans with the selection and/or monitoring of investment alternatives from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. The Registrant's negotiable annual retirement consulting fee shall generally range between 0.06% and 0.75% of the market value of the plan assets.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant provides financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone fee basis. Registrant's planning and consulting fees are negotiable, but generally range from \$2,000 to \$20,000 on a fixed fee basis, or at a mutually agreed upon hourly rate, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

- B. Clients may elect to have the Registrant's advisory fees and financial planning fees deducted from their custodial account. Both Registrant's *Investment Advisory Agreement* and the custodial/ clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that management fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice. The Registrant shall deduct fees and/or bill clients quarterly in advance, based upon the market value of the assets on the last business day of the previous quarter.
- C. As discussed below, unless the client directs otherwise or an individual client's circumstances require, the Registrant shall generally recommend that Charles Schwab and Co., Inc. ("Schwab") serves as the broker-dealer/custodian for client investment management assets.

Broker-dealers such as Schwab charge brokerage commissions, transaction, and/or other type fees for effecting certain types of securities transactions (i.e., including transaction fees for certain mutual funds, and mark-ups and mark-downs charged for fixed income transactions, etc.). The types of securities for which transaction fees, commissions, and/or other type fees (as well as the amount of those fees) shall differ depending upon the broker-dealer/custodian. While certain custodians, including Schwab, generally (with the potential exception for large orders) do not currently charge fees on individual equity transactions (including ETFs), others do.

There can be no assurance that Schwab will not change their transaction fee pricing in the future.

Schwab may also assess fees to clients who elect to receive trade confirmations and account statements by regular mail rather than electronically.

Clients will incur, in addition to Registrant's investment management fee, brokerage commissions and/or transaction fees, and, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g., management fees and other fund expenses)

When beneficial to the client, individual fixed-income and/or equity transactions may be effected through broker-dealers with whom Registrant and/or the client have entered into arrangements for prime brokerage clearing services, including effecting certain client transactions through other SEC registered and FINRA member broker-dealers (in which event, the client generally will incur both the transaction fee charged by the executing broker-dealer and a "trade-away" fee charged by Schwab). These fees/charges are in

addition to Registrant's investment advisory fee describe herein at Item 5. Registrant does not receive any portion of these fees/charges.

D. Registrant's annual investment advisory fee shall be prorated and paid quarterly, in advance, based upon the market value of the assets on the last business day of the previous quarter. The *Investment Advisory Agreement* between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the *Investment Advisory Agreement*. Upon termination, the Registrant shall refund the pro-rated portion of the advanced advisory fee paid based upon the number of days remaining in the billing quarter.

E. **Securities Commission Transactions.** In the event that the client desires, the client can engage Registrant's representatives, in their individual capacities, as registered representatives of PKS, an SEC-registered and FINRA member broker-dealer, to implement investment recommendations on a commission basis. In the event the client chooses to purchase investment products through PKS, PKS will charge brokerage commissions to effect securities transactions, a portion of which commissions PKS shall pay to Registrant's representatives, as applicable. The brokerage commissions charged by PKS may be higher or lower than those charged by other broker-dealers. In addition, PKS, as well as Registrant's Representatives, relative to commission mutual fund purchases, may also receive additional ongoing 12b-1 trailing commission compensation directly from the mutual fund company during the period that the client maintains the mutual fund investment. The Registrant's representatives shall not collect 12b-1 trailing commissions from the same investment product(s) for which the Registrant is also charging advisory fees as described in Item 5.A. above.

1. The recommendation that a client purchase a commission product from PKS presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's representatives.
2. Clients may purchase investment products recommended by Registrant through other, non-affiliated broker dealers or agents.
3. The Registrant does not receive more than 50% of its revenue from advisory clients as a result of commissions or other compensation for the sale of investment products the Registrant recommends to its clients.
4. When Registrant's representatives sell an investment product on a commission basis, the Registrant does not charge an advisory fee in addition to the commissions paid by the client for such product. When providing services on an advisory fee basis, the Registrant's representatives do not also receive commission compensation for such advisory services. However, a client may engage the Registrant to provide investment management services on an advisory fee basis and separate from such advisory services purchase an investment product from Registrant's representatives on a separate commission basis.

Item 6 Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant is a party to any performance or incentive-related compensation arrangements with its clients.

Item 7 Types of Clients

The Registrant's clients shall generally include individuals, high net worth individuals, pension and profit-sharing plans, charitable organizations, and other business entities. Registrant does not impose a minimum asset requirement or a minimum fee requirement.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

A. The Registrant may utilize the following methods of security analysis:

- Charting - (analysis performed using patterns to identify current trends and trend reversals to forecast the direction of prices)
- Fundamental - (analysis performed on historical and present data, with the goal of making financial forecasts)
- Technical – (analysis performed on historical and present data, focusing on price and trade volume, to forecast the direction of prices)
- Cyclical – (analysis performed on historical relationships between price and market trends, to forecast the direction of prices)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- Long Term Purchases (securities held at least a year)
- Short Term Purchases (securities sold within a year)
- Options (contract for the purchase or sale of a security at a predetermined price during a specific period of time)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by Registrant) will be profitable or equal any specific performance level(s).

B. The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases, Short Term Purchases, and Trading - are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term

investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer-term investment strategy. In general, the Registrant engages infrequently in short term investment strategies.

In addition to the fundamental investment strategies discussed above, the Registrant may also implement and/or recommend options transactions. Option strategies have a high level of inherent risk. (See discussion below).

Options Strategies. Registrant may engage in options transactions for the purpose of hedging risk and/or generating portfolio income. The use of options transactions as an investment strategy involves a high level of inherent risk. Option transactions establish a contract between two parties concerning the buying or selling of an asset at a predetermined price during a specific period of time. During the term of the option contract, the buyer of the option gains the right to demand fulfillment by the seller. Fulfillment may take the form of either selling or purchasing a security depending upon the nature of the option contract. Generally, the purchase or the recommendation to purchase an option contract by the Registrant shall be with the intent of offsetting/“hedging” a potential market risk in a client’s portfolio.

Certain options-related strategies (i.e., straddles, short positions, etc.), may, in and of themselves, produce principal volatility and/or risk. Thus, a client must be willing to accept these enhanced volatility and principal risks associated with such strategies. In light of these enhanced risks, client may direct the Registrant, in writing, not to employ any or all such strategies for their accounts.

Borrowing Against Assets/Risks. A client who has a need to borrow money could determine to do so by using:

- **Margin-**The account custodian or broker-dealer lends money to the client. The custodian charges the client interest for the right to borrow money, and uses the assets in the client’s brokerage account as collateral; and,
- **Pledged Assets Loan-** In consideration for a lender (i.e., a bank, etc.) to make a loan to the client, the client pledges investment assets held at the account custodian as collateral.

These above-described collateralized loans are generally utilized because they typically provide more favorable interest rates than standard commercial loans. These types of collateralized loans can assist with a pending home purchase, permit the retirement of more expensive debt, or enable borrowing in lieu of liquidating existing account positions and incurring capital gains taxes. However, such loans are not without potential material risk to the client’s investment assets. The lender (i.e., custodian, bank, etc.) will have recourse against the client’s investment assets in the event of loan default or if the assets fall below a certain level. For this reason, Registrant does not recommend such borrowing unless it is for specific short-term purposes (i.e., a bridge loan to purchase a new residence). Registrant does not recommend such borrowing for investment purposes (i.e., to invest borrowed funds in the market). Regardless, if the client was to determine to utilize margin or a pledged assets loan, the following economic benefits would inure to Registrant:

- by taking the loan rather than liquidating assets in the client's account, Registrant continues to earn a fee on such Account assets; and,
- if the client invests any portion of the loan proceeds in an account to be managed by Registrant, Registrant will receive an advisory fee on the invested amount; and,
- if Registrant's advisory fee is based upon the higher margined account value, Registrant will earn a correspondingly higher advisory fee. This could provide Registrant with a disincentive to encourage the client to discontinue the use of margin.

The Client must accept the above risks and potential corresponding consequences associated with the use of margin or a pledged assets loan

Covered Call Writing. Covered call writing is the sale of in-, at-, or out-of- the money call option against a long security position held in a client portfolio. This type of transaction is used to generate income. It also serves to create downside protection in the event the security position declines in value. Income is received from the proceeds of the option sale. Such income may be reduced to the extent it is necessary to buy back the option position prior to its expiration. This strategy may involve a degree of trading velocity, transaction costs and significant losses if the underlying security has volatile price movement. Covered call strategies are generally suited for companies with little price volatility.

- C. Currently, the Registrant primarily allocates client investment assets among various individual equity (stocks), debt (bonds), fixed income securities, municipal securities, mutual funds, exchange traded funds, and/or Independent Manager(s), on a discretionary basis in accordance with the client's designated investment objective(s). In certain limited cases, Registrant may also provide investment advice about unaffiliated private investment funds as described in Item 4.B. above.

Item 9 Disciplinary Information

The Registrant has not been the subject of any material disciplinary actions.

Item 10 Other Financial Industry Activities and Affiliations

- A. **Registered Representatives of PKS.** The Registrant's President and certain of the Registrant's representatives are also registered representatives of PKS, an SEC-registered and FINRA member broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. **Broker Dealer.** The Registrant's President and certain of the Registrant's representatives are registered representatives of PKS, a FINRA member broker-dealer. Clients can choose to engage Registrant's President and certain of the Registrant's representatives, in their individual capacities, to effect securities brokerage transactions on a commission basis.

Licensed Insurance Agents. The Registrant's President and certain of the Registrant's representatives, in their individual capacities, are licensed insurance agents, and may recommend the purchase of certain insurance-related products on a commission basis. As referenced in Item 4B above, clients can engage Registrant's President and certain of the Registrant's representatives to purchase insurance products on a commission basis.

Conflict of Interest: The recommendation by either Registrant's President and certain related persons, that a client purchase a securities or insurance commission product from a Registrant representative in his/her individual capacity as a registered representative of PKS and/or as an insurance agent, presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend investment products based on commissions received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from Registrant's President or certain related persons. Clients are reminded that they may purchase securities and/or insurance commissions products recommended by Registrant through other, non-affiliated registered representatives of a broker/dealer or non-affiliated insurance agents.

- D. The Registrant does not receive compensation, directly or indirectly, for selecting other registered investment adviser firms for clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.

In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.

- B. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material ownership interest.
- C. The Registrant and/or representatives of the Registrant *may* buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as "scalping" (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, "front-running" (i.e., personal trades executed prior to those of the Registrant's clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant's "Access Persons". The Registrant's securities transaction policy requires that Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his/her designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date the Registrant selects; provided, however that at any time that the Registrant has only one Access Person, he or she shall not be required to submit any securities report described above.

- D. The Registrant and/or representatives of the Registrant *may* buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11.C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant's Access Persons.

Item 12 Brokerage Practices

- A. In the event that the client requests that the Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct the Registrant to use a specific broker-dealer/custodian), Registrant generally recommends that investment management accounts be maintained at Schwab. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal *Investment Advisory Agreement* with Registrant setting forth the terms and conditions under which Registrant shall manage the client's assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that the Registrant considers in recommending Schwab (or any other broker-dealer/custodian to clients) include historical relationship with the Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Broker-dealers such as Schwab can charge transaction fees for effecting certain securities transactions. To the extent that a transaction fee will be payable by the client to Schwab, the transaction fee shall be in addition to Registrant's investment advisory fee referenced in Item 5 above.

To the extent that a transaction fee is payable, Registrant shall have a duty to seek best execution for such transaction. However, that does not mean that the client will not pay a transaction fee that is higher than another qualified broker-dealer might charge to effect the same transaction where Registrant determines, in good faith, that the transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, transaction rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible rates for client account transactions.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant receives from Schwab (or another broker-dealer/custodian, investment platform, unaffiliated investment manager, mutual fund sponsor, or vendor) without cost (and/or at a discount) support services and/or products, certain of which assist the Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by the Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted and/or gratis consulting services, discounted and/or gratis attendance at conferences, discounted and/or gratis software, meetings, and other educational and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

There is no corresponding commitment made by the Registrant to Schwab or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

2. The Registrant does not receive referrals from broker-dealers.
3. The Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to “batch” the client's transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client's accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- B. To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or “bunch” such orders to seek best execution, to negotiate more favorable commission rates

or to allocate equitably among the Registrant's client's differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

Item 13 Review of Accounts

- A. For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant's Principals and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B. The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

Item 14 Client Referrals and Other Compensation

- A. As referenced in Item 12.A.1 above, the Registrant receives economic benefits from Schwab including support services and/or products without cost (or at a discount).

There is no corresponding commitment made by the Registrant to Schwab or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

- B. Neither the Registrant nor its representatives compensate any non-supervised persons for client referrals.

Item 15 Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian.

The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

In addition, certain clients have established asset transfer authorizations which permit the qualified custodian to rely upon instructions from the Registrant to transfer client funds or securities to third parties. These arrangements are disclosed at ADV Part 1, Item 9, but in accordance with the guidance provided in the SEC's February 21, 2017 Investment Adviser Association No-Action Letter, the affected accounts are not subject to an annual surprise CPA examination.

Item 16 Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, client shall be required to execute an *Investment Advisory Agreement*, naming the Registrant as client's investment adviser, granting the Registrant authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, in writing, on the Registrant's discretionary authority (i.e., limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

Item 17 Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

Item 18 Financial Information

- A. The Registrant does not solicit fees of more than \$1,200, per client, six months or more in advance.

- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.

The Registrant's Chief Compliance Officer, Catherine Whetstone, remains available to address any questions that a client or prospective client may have regarding the above disclosures.
